Confidentiality

Complaints of discrimination and/or harassment are treated with the greatest degree of confidentiality possible. In all situations, confidentiality is maintained on a strict need-to-know basis; however, confidentiality can only be respected insofar as it does not interfere with the University's obligation to investigate allegations of misconduct that require the University to take corrective action.

Retaliation

Colorado State University prohibits retaliation against individuals who engage in protected activities, including filing complaints or who participate in complaint processes. Retaliatory action is regarded as a basis for a separate complaint under the University's procedures.

Colorado State University does not discriminate on the basis of race, age, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, or gender identity or expression. Equal opportunity of employment and admission shall be extended to all persons.
