Get Ready to Succeed with the Libraries

The Libraries is a critical part of faculty members’ support ecosystem on campus. We support you as researchers, scholars and teachers—when and where you need us the most. This is a quick guide on what you can do in your first year to get the most out of library resources and services.

Checking Out Library Resources & Services

**Check out your first item**

Use your RamCard to check out books, laptops, government documents, and more! Faculty can check out up to 200 items and renew for up to 36 months. For online articles and e-Books, log in with your eID while browsing our catalog. You can also request books or articles that CSU doesn’t own through our Interlibrary Loan service.

- [lib.colostate.edu](http://lib.colostate.edu) (Library Catalog)
- [prospectorhome.coalliance.org](http://prospectorhome.coalliance.org) (Regional Catalog)
- [lib.colostate.edu/services/interlibrary-loan](http://lib.colostate.edu/services/interlibrary-loan)

**Explore our journals**

With a robust collection of scholarly journals, our Journal Search can get you quick access to the journals that are most important for you and keep you current with the latest and greatest in your field. When you’re ready to share your work in a journal, we can also help you evaluate your publishing options.

- [lib.colostate.edu/find](http://lib.colostate.edu/find)

**Test your off-campus access**

To access library resources off campus, you will simply log in with your eID when prompted while browsing in our catalog or databases. Check the Libraries’ website for the most up-to-date information about accessing online resources and troubleshooting.

- [www.acns.colostate.edu/duo](http://www.acns.colostate.edu/duo)

**Say hello to our experts**

Subject-specialist librarians and archivists are ready to support your work. Research consultations can address many topics, such as navigating our collections, measuring research impact, or exploring publishing options. Librarians can also help teach critical research skills your students need to succeed, in a classroom or virtually.

Get help wrangling your data
Data management practices are becoming increasingly important in the digital age. Many funding agencies and journals require authors and grantees to share their research data. Our data specialists and workshops can answer all your questions about reproducible research, data cleaning, and data archiving and sharing.

Learn about Mountain Scholar
Mountain Scholar is an open access digital repository that collects, preserves and provides access to digitized library collections, data, theses and dissertations, and other scholarly and creative works from several academic entities in Colorado and Wyoming, including CSU.
[mountainscholar.org](mountainscholar.org)

Get ready to research
Sign up for ORCID
CSU has an institutional membership in ORCID, a registry of unique identifiers for scholars and researchers. ORCID iDs distinguish you from researchers with similar names, persist throughout your career, and are increasingly required for grant applications and publishing.
[libguides.colostate.edu/orcid-id](libguides.colostate.edu/orcid-id)
