

TILT

THE INSTITUTE FOR LEARNING AND TEACHING

Mission: The Institute for Learning and Teaching ([TILT](#)) helps students, faculty, and staff use research-based learning and teaching methods to support academic achievement, equity, and post-graduation success for all CSU students.

Structure: Our programs integrate peer education, undergraduate research, course redesign, curricular alignment, educational technology, and teaching-related professional development. By connecting these components, we help make robust learning the hallmark of a CSU education.

TILT Resources:

[Undergraduate Student Resources](#) include tutoring, study groups, TILT workshops for student success, academic integrity, service learning courses, community based research opportunities, placement in research experiences, scholarship programs, and so much more!

[Faculty and Instructor Resources](#) include research-based teaching strategies, other instructional resources, and the scholarship of teaching and learning content organized through the Teaching Effectiveness Framework. Course teams can also get course design and development support.

[Professional Development](#) provides teaching and learning opportunities for faculty, GTA's, and staff with offerings throughout the year.

The [Master Teacher Initiative](#) (MTI) is a University-wide program to enhance the quality of teaching within CSU's colleges and libraries. The objectives of the MTI are to: underscore the importance of quality teaching within the context of the University's overall mission; provide opportunities for faculty from across a college to address common teaching interests and concerns; and contribute to the creation of a culture where the scholarship of teaching is valued and appreciated.

[Graduate Student Resources](#) provides training for all first time GTA's; Top 10 To-Dos for new graduate students, the Graduate Teaching Certificate and other faculty development opportunities.

[University Testing Center](#) - It is the mission of the University Testing Center and its affiliations to provide a positive and professional testing environment, high-level test security procedures, and exemplary customer service to faculty, students, and community members through effective teamwork.

[Keep Teaching](#) TILT in collaboration with ACNS and CSU Online provides resources for instructors in adaptations due to COVID-19.
